

For this assignment, you'll be creating images similar to those in the iTunes ads - silhouetted images on a brightly colored background. It's easy to do.

Create a new document that is 8 x 8, 300 dpi

Come up with a theme

Your theme can be music, sports, emotions, etc. Come up with a theme that you can work with.

Take an action photo

Either take the photo yourself, or have someone else take one of you. The photo should be such that when the subject is in silhouette form, it is easily recognizable as to what the person is doing. What he/she is doing should match your theme.

The theme of the photo to the right is music.

Because the guy is holding the guitar away from his body, when the image is shilouetted, we'll still be able to tell that he is holding a guitar.

Clear the background of your image.

Use the Magic Wand or the lasso tool to get rid of any background scenery.

Use the magic wand to select all of the background areas.

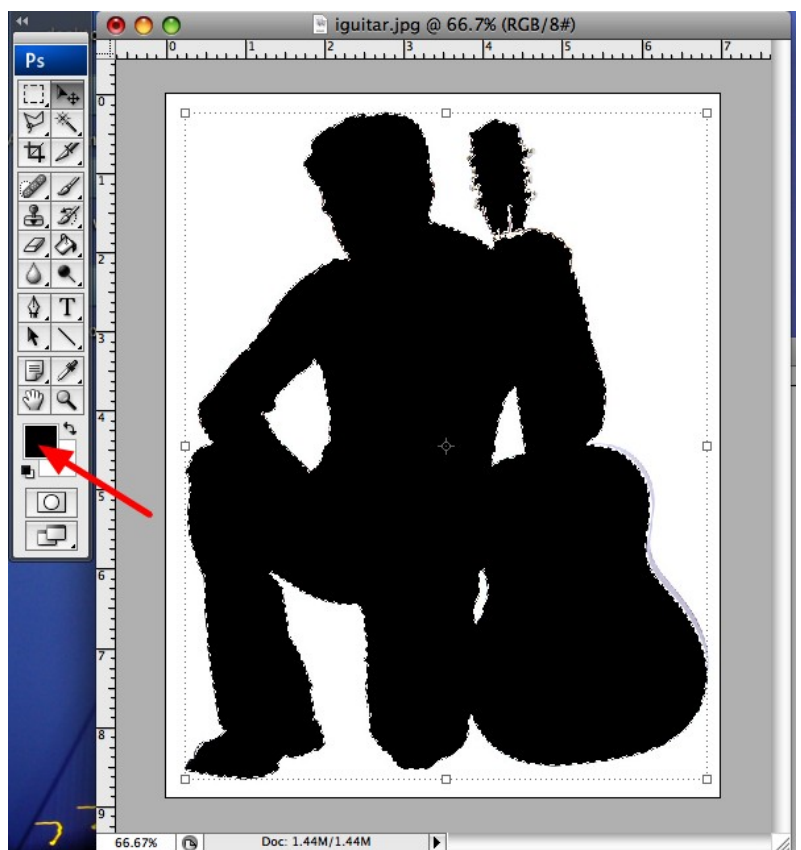

Don't forget the areas between and around the person.

Then go to **Select>Inverse**
This will select the person instead of the background.

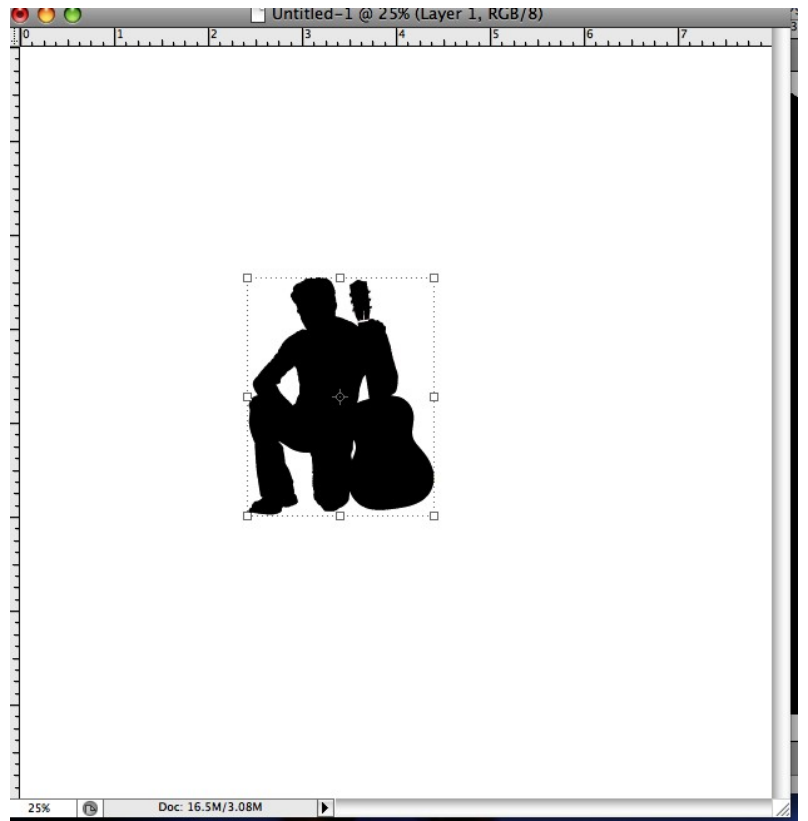

Fill in the silhouette with black.

The easiest way to do this is to click **Option+Delete**.
(your foreground color must be black for this to work)

Move the silhouette

Move the silhouetted image to your new 8X8 document.

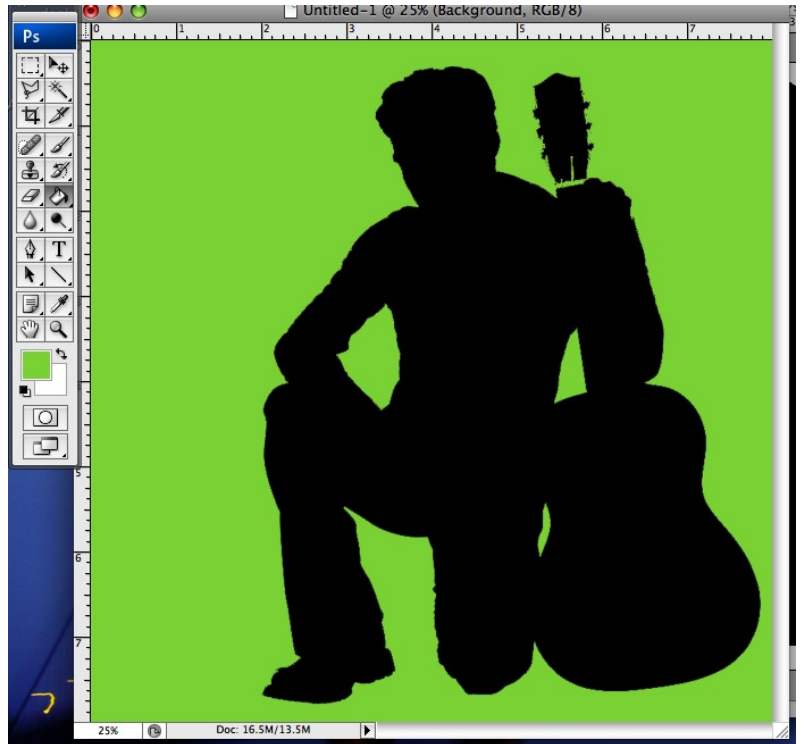

Enlarge the image

HOLD DOWN THE SHIFT KEY and stretch out the image so it fills the space.

Color the background with a bright, neon-type color.

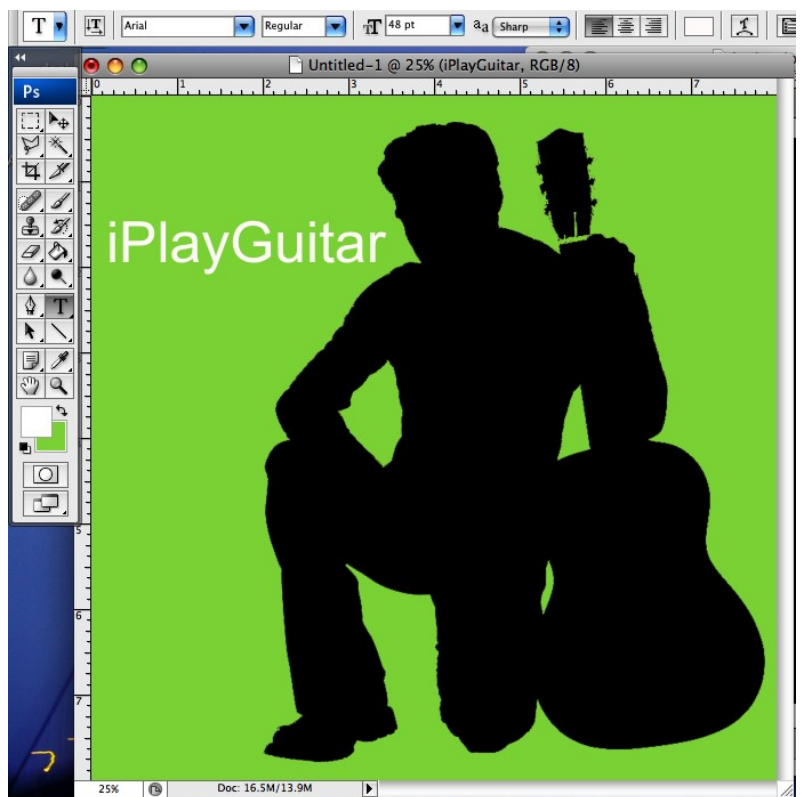

Type iWords

Come up with an iWord to describe what the silhouette is representing.

Use Arial font, size 30 - 48, whichever size works better.

The text color should be white. Do not put any spaces between the words.

Flatten the image and save as **yourname.iTheme1.jpg** and put it in the teacher drop box.

Now, do one more image, using the same process but a different theme. 8x8, 300dpi.

For this one, though, you're going to include a background of some sort that is abstracted and neon colors. I should not be able to discern what the background is. The background shouldn't include black colors either.

When done, save this image as yourname.iTheme2.jpg and put in the teacher drop box.
